CUSTOMS BROKERAGE

UNDER ITS NATIONAL CUSTOMS BROKERS PERMIT, VORTEX FACILITATES U.S. CUSTOMS RELEASE OF YOUR SHIPMENTS AT ANY AIR OR OCEAN PORT IN THE U.S.A.

VORTEX processes entries electronically with CBP (US Customs & Border Protection) and PGA's (participating government agencies) carefully verifying that all requirements are met. PGA's include but are not limited to FDA, USDA, PPQ, F&W, BTT, FCC, DOT, EPA. For ocean shipments VORTEX timely files ISF(Import Security Filing) prior to departure from origin as is strictly required by CBP.

Operating under CBP's new system ACE (Automated Commercial Environment) VORTEX complies with CBP's deployment of the agency's monumental task that is ACE.

You can read more about the development of ACE at: <https://www.cbp.gov/trade/automated>

We carefully ensure that all FTL/LTL compliance requisites, codes, security measures, and transportation standards are in place. Our experienced staff takes special care in coordinating and managing your shipments at every milestone from beginning to end, including the procurement of special permits, security and safety needs.

We have established partnerships with reliable and experienced trucking companies which ensures our customers needs will be met at all times.

VORTEX operates under permits issued by US DOT (Dept of Transportation) as well as FMCSA (Federal Motor Carrier Safety Administration). As such our primary concern is safety and compliance at all times.

CARGO INSURANCE

WE UNDERSTAND THE NEED TO PROTECT OUR CUSTOMER'S SHIPMENTS. VORTEX PARTNERS WITH WORLD RENOWN TOP RATED INSURANCE COMPANIES.

Unfortunately, and very often shippers and consignees alike abruptly learn (when faced with a claim) that their shipments are not protected; this is the wrong time to evaluate coverage, or that there is no coverage to protect their interest. It is a fact that carriers are insured to protect their interest and property, not that of the shipper's, and if a shipper purchases protection from the carrier it is an expensive endeavor.

Being the global logistics services entity that VORTEX is, we understand the need to protect our customers' shipments against loss or damage of any kind while in transit.

Upon your approval, our team of professionals will readily issue certificates of insurance; we are electronically connected with our insurance partners, and also empowered to extend coverage in minutes.
